

**Blue Ridge Orthopaedics
now provides
specialized care
in the treatment of
foot and ankle
problems**

Dr. W. Bruce Richmond

A native of Greenville, S.C., Dr. Richmond joined Blue Ridge Orthopaedics in 1999. He earned a Bachelor of Science degree in biology from Wofford College in Spartanburg, S.C., and received his medical degree from the Medical University of South Carolina in Charleston, S.C. After his internship, Dr. Richmond served in the United States Army for four years and completed his medical training at Erlanger Medical Center of the University of Tennessee College of Medicine-Chattanooga Unit, with a residency in Orthopaedic Surgery followed by a fellowship in Trauma Surgery. He completed an additional fellowship in Foot and Ankle surgery in August 2007.

Dr. Richmond serves as team physician for T.L. Hanna High School. He also provides medical coverage for many athletic events at Anderson University.

Dr. Richmond is board certified by the American Board of Orthopaedic Surgery. He is a member of the American Academy of Orthopaedic Surgery and the American Orthopaedic Foot and Ankle Society.

Our feet and ankles withstand forces equal to several hundred tons during an average day of standing and walking. So it is no wonder that 75% of us will experience significant foot and ankle pain at some point during our lives. Foot pain is never normal. Luckily we can treat most problems and improve our quality of life. Foot and ankle problems range from congenital or inherited disorders, to traumatic injuries, to acquired problems from daily wear and tear. Treatment may include medications, physical therapy, corrective shoe wear, orthopaedic devices, or surgery.
